SUMMARY

Senior Full Stack Developer with 2+ years of experience building scalable, production-grade web applications using Next.js, React, Node.js, Express, and PostgreSQL. Builds AI-powered products with RAG pipelines and LangChain, real-time systems with Socket.io, and SEO-first, performance-optimised Next.js applications focused on Core Web Vitals. Strong in system design, schema design, and SaaS / multi-tenant architecture, with hands-on payment integration (Stripe, LemonSqueezy) and CI/CD-driven deployment workflows.

SKILLS

Languages: JavaScript, TypeScript, Python, PHP

Frontend: React.js, Next.js, Redux, Zustand, TanStack Query, Tailwind CSS, Material UI, Shadcn UI, Framer Motion, GSAP, Three.js

Backend & Databases: Node.js, Express, PostgreSQL, MongoDB, MySQL, RESTful APIs, GraphQL, WebSockets, Socket.io

AI / ML: FastAPI, LangChain, RAG Pipelines, NLP, NumPy, Pandas

SaaS & Auth: Multi-tenant Architecture, Subscription Management, Clerk, Convex, Stripe, LemonSqueezy

DevOps & Tools: Git, GitHub, GitLab, Docker, Apache, Vercel, Jest, Postman

EXPERIENCE

Senior Full Stack Developer — Squadkin Technologies Pvt. Ltd., Ahmedabad April 2025 – Present

- Lead web and eCommerce development with React, Next.js, Node.js, and Python for global clients.
- Architect scalable, SEO-first Next.js applications with a focus on Core Web Vitals and real-world load handling.
- Drive system design and schema design decisions across multiple concurrent client projects.

Associate Software Developer — Elsner Technologies, Ahmedabad July 2024 – January 2025

- Delivered 6+ production and pre-production projects, including a CMS panel built with Laravel and React.
- Built full-stack applications using Next.js and the MERN stack; designed dynamic UIs with Shadcn UI, Material UI, and Framer Motion.
- Implemented state management with Redux, Zustand, and TanStack Query; built secure backends with Node.js, Express, MongoDB, MySQL, and Laravel.
- Streamlined deployment workflows with CI/CD pipelines for consistent, reliable releases.

Software Developer Intern — Elsner Technologies, Ahmedabad January 2024 – July 2024

- Started in front-end development with React, then progressed to full-stack work with the MERN stack and Next.js.
- Delivered production features across multiple client projects under senior developer guidance.

PROJECTS

Squadexa AI

- AI writing platform used in 180+ countries; built NLP pipelines with custom tokenisation, RAG models, and LangChain.
- Shipped AI humaniser, plagiarism checker, AI detector, and an internal admin panel using Next.js and Python.

Casa39 AI Chatbot

- Conversational AI for an Italian eCommerce brand covering the full shopping journey from discovery to checkout.
- Built admin panel for lead generation, conversation tracking, and chatbot customisation with LangChain and NLP.

Dayzen

- Solo-built HRMS + WMS combining Keka and Jira — attendance, payroll, leave, and project tracking with warehouse operations.
- Built a full admin panel covering attendance, payroll, leave management, and warehouse operations end-to-end.

KartIPR

- Marketplace to buy, sell, and license IP — patents, copyrights, and trademarks — built with Next.js and MySQL.
- Built admin panel with listing management, lead tracking, analytics dashboard, and a blog CMS.

EDUCATION

Bachelor of Technology, Information Technology 2021 – 2025

L.J. Institute of Engineering and Technology, Ahmedabad — CGPA: 8.7
